Hearing aids do not restore natural hearing. Individual experiences vary depending on the severity of hearing loss, accuracy of evaluation, proper fit and ability to adapt to amplification. *Our hearing test and video otoscopic inspection are always free. Hearing test is an audiometric test to determine proper amplification needs only. These are not medical exams or diagnoses nor are they intended to replace a physician's care. If you suspect a medical problem, please seek treatment from your doctor. See store for details.
